

A101-Driving Shaft for Obsolete Type Motors.

A124-Driving Shaft for All Types with exception of Motors #1~5 and "W" Series.

A132-Driving Gear used with our A131 ~3" in diameter.

A133-Bevel Pinion and Gear Complete used with our A162. Quakercut Fibre Gear set in high carbon steel body.

A134-Intermediate Gear used with our A138.

A136-Gear for our A271~3 3/4" in diameter.

A137-Bevel Pinion and Gear Complete used with our A163 and A351. Quakercut Fibre Gear set in solid brass body.

A138-Bevel Pinion used with our A134. Quakercut Fibre Gear set on solid brass body.

A143-Governor Drive Gear used in #1 Motor. Quakercut Fibre Gear set on steel body.

A144-Quakercut Fibre Pinion used with our A138~A320~A321~A143 and A371.

A212-Brass Bevel Pinion for Obsolete Type Motor.

A320-Bevel Pinion used with our A323. Quakercut Fibre Gear set on solid brass body.

A321-Bevel Pinion and Gear Complete used with our A163 and A351. Quakercut Fibre Gear set on solid brass body.

A323-Intermediate Driving Gear used with our A320.

A356-Governor Driving Gear used with our K370 for "W" Series Motors. Quakercut Fibre Gear set in carbon steel body.

A370-Bevel Pinion and Gear Complete used with our A162. Quakercut Fibre Gear set in solid brass body.

A371-Governor Driving Gear used with our A163 and A351 for Old-Type Motors. Quakercut Fibre Gear set on carbon steel body.

A372-Bevel Gear only used with our A371.

A373-Double Fibre Pinion used with our A380 in electric motors only.

- A102-Spring Cup Separator used with our A275.
- A131-Winding Gear for #5 Motor ~2 $\frac{3}{8}$ " in diameter.
- A135-Combination Cast and Stamped Steel Winding Gear for #1 Motor~2 $\frac{1}{2}$ " in diameter.
- A141-Cast Steel Winding Gear for #1 Motor~2 $\frac{1}{2}$ " in diameter.
- A142-Spring Cup Head and Drive Gear used with our A275.
- A271-Spring Cup Complete for #1 Motor~3 $\frac{1}{8}$ " in diameter. Use our H. Q. Spring No. 62.
- A275-Spring Cup~3 $\frac{1}{2}$ " in diameter. (Use our Screw GLA18.) Use our H. Q. Spring No. 35.
- A326-Stamped Steel Winding Gear for #1 Motor.
- A358-Driving Gear used with our A389 for "W" Series Motors~2 $\frac{1}{2}$ " in diameter.
- A364-Spring Cup Head and Drive Gear used with our A390.
- A390-Spring Cup Complete used with our A393 and A364. Use our H. Q. Spring No. 35.
- A391-Cap for A271.
- A392-Driving Gear Complete for "W" Series Motors~4 $\frac{1}{8}$ " in diameter.
- A393-Spring Cup Separator used with our A390.
- A394-Spring Cup Head and Drive Gear used with our A275 and A130.

Winding Gears for every type of Columbia Motors.

- A A117-Female Winding Shaft Complete for #5 Motor.
- A A120-Female Winding Shaft Complete for Cast Frame Motor~19T Gear.
- A A121-Winding Shaft Complete for 3-Spring Cast Motor~19T Gear.
- A A122-Winding Shaft used with our A116 and A127.
- A A123-Turntable Shaft used with our A143.
- A A302-Turntable Shaft used with our A133.
- A A303-Turntable Shaft used with our A137.
- A A325-Turntable Shaft used with our A138.
- A A327-Winding Shaft Complete for Double Spring Cast Motor~19T Gear.
- A A328-Winding Shaft Complete for 4-Spring Cast Motor ~ 19T Gear.
- A A359-Turntable Shaft used with our A356 for "W" Series Motors.
- A A365-Nickel Plated Regulator Lever.
- A A366-Nickel Plated Brake Lever.
- A A369-Winding Shaft Complete for "W" Series Motors~16T Gear.
- A A374-Winding Shaft Complete with 10T Hatchet for New Type Portables~12T Winding Gear.
- A A375-Winding Shaft Complete for Obsolete Type Motors.
- A A376-Winding Shaft Complete for Obsolete Type Motors.
- A A377-Nickel Plated Speed Regulator Plate.
- A A378-Winding Shaft Complete for Obsolete Type Motors.
- A A379-Turntable Shaft for New-Type Portables used with our A356.
- A A399-Winding Shaft Complete for Stamped Double Spring Motors ~11T Gear.
